

Seyed Pouya Paknezhad

Assistant Professor of Emergency Medicine

Tabriz University of Medical Sciences

Profile

Gender: Male

Date of Birth: 16. July. 1989

Marital Status: Married

Country of Origin: Iran

Present Nationality: Iranian

Education

2014 Graduate from Tabriz University of Medical Sciences as General Practitioner

2017 Graduate from Tabriz University of Medical Sciences as Emergency Medicine Specialist

2017 Board Certify in Emergency Medicine

Contact

Address: Department of Emergency Medicine, Imam Reza Hospital, Tabriz University of Medical Sciences, Golgasht Street, Tabriz, Iran.

Tel: +984133352078
+989363295897

Email: pooya.paknejad@gmail.com

Research Profiles ID

Researcher ID: I-7962-2018

Scopus ID: 57205250672

ORCID ID: 0000-0002-0486-5525

Language Skills

Areas of Interest

Emergency Medicine, Trauma, Traige, Pre-hospital Proceedings and Emergency Management, Disaster Management, Environmental Emergencies, Poisoning

Post Graduate Education

- Board Certify of Emergency Medicine, Study in Tabriz University of Medical Sciences

Awards & Honors

- Ranked 1th in Board Exam of Emergency Medicine in Iran, 2017

General Skills

- IT Skills: (Internet, Windows, SPSS data Collection, Manipulation, and Analysis)
- Refreccess Manager
- Project Management
- Problem Solving
- Lateral Thinking
- Team Working

Current Position

- Assistant Professor of Emergency Medicine, Tabriz University of Medical Sciences, Tabriz, Iran.
- Member of Emergency Medicine Research Team, Tabriz University of Medical Sciences, Tabriz, Iran.

Lecture Certificates

- The first emergency resuscitation, trauma and emergency care conference, 1395/07/08
- Lung cardiopulmonary resuscitation and critical patient care in the emergency department, 1395/09/28
- Lung cardiopulmonary resuscitation and critical patient care in the emergency department, 1396/04/25
- Empowerment of General Practitioners (Emergency Management), 1396/11/24
- News of diabetes treatment, 1397/12/16
- Empowering general practitioners working in the emergency department, 1398/02/02
- Empowering general practitioners working in the emergency department, 1398/02/07
- Basic and advanced pulmonary cardiopulmonary resuscitation, 1398/11/06

Supervisor & Advisor of Thesis

1. Standard mallampati versus mallampati in supine position for predicting of difficult laryngoscopy and intubation. **(Supervisor)**
2. Predictive value of Shock Index, Reverse Shock Index and Modified Shock Index in GI bleeding patients hospital outcome over 75 years old. **(Supervisor)**

3. Knowledge and Skills of Pre-hospital Personnel in Airway Management. **(Supervisor)**
4. Comparison of the rate and type of patients before and after health reform plan. **(Supervisor)**
5. Investigating the effect of problem-based education versus traditional education on improving the performance of medical trainees in conducting interventions related to management of patients with trauma. **(Supervisor)**
6. Diagnostic Value of Blood Cell Count Diagnosing Sub Arachnoid Hemorrhage (SAH) in Patients presented to Emergency Department. **(Supervisor)**
7. Association of head and facial traumatic injuries and cervical spinal injury. **(Advisor)**
8. Survey of knowledge and attitude of residents of emergency medicine, internal medicine, surgery about authorized educational websites and applications. **(Advisor)**
9. The predictive value of M.REMS and NTS score in hospital outcome of elderly patient with traffic accident. **(Advisor)**
10. Evaluation of renal function in patients with renal colic and its relation with hydronephrosis. **(Advisor)**
11. Prevalence of methicillin-resistant staphylococcus aureus colonization in emergency ward healthcare workers. **(Advisor)**
12. Dexmedetomidine for procedural sedation in the ED: a systematic review. **(Advisor)**
13. Effect of Using Helmet on Trauma Severity and Admission Outcome in Motorcycle Riders. **(Advisor)**
14. Effects of fentanyl versus remifentanyl pretreatment on the QTc interval in patients undergo rapid sequence intubation. **(Advisor)**

15. Diagnostic value of bedside ultrasonography of Optic Nerve Sheath Diameters (ONSD) in Patients with high risk headach. **(Advisor)**
16. Evaluating the length of stay of patients in Emergency Department, regarding determination time and release time, due to internal diseases; and its association with the average length of stay at internal medicine wards. **(Advisor)**
17. Analysis of knowledge and practice of EMS personnel on how to deal with disasters and the role of active learning and problem solving method for its improving. **(Advisor)**
